FOR IMMEDIATE RELEASE

Baker-McGuire Introduces New Milling Road Collection for Spring 2026

Inspired by Centuries of European Craftsmanship, the Latest Milling Road Collection
Reinterprets Classical Design for Today's Interiors

HIGH POINT, NC (April 2026) – [Baker-McGuire](#) reimagines [Milling Road](#) at Spring High Point Market 2026 with a 33-piece collection that reflects the line's distinctive design perspective. As part of the Baker-McGuire portfolio, Milling Road has long been recognized for its interpretation of European-inspired furnishings, and this latest introduction marks a thoughtful return to those roots – reinterpreted for modern living.

Rooted in the rich traditions of 18th-, 19th- and 20th-century European design, the latest Milling Road collection draws inspiration from French antique shops, English royal estates, and the work of master craftspeople across generations. Each piece reflects a reverence for classical forms, interpreted with a more livable sensibility suited for today's interiors.

Crafted from materials such as walnut, oak, brushed pine, leather, and polished metal, the collection balances elegance with durability, creating furnishings designed to stand the test of time. Subtle detailing and refined proportions highlight the artistry of traditional craftsmanship, resulting in pieces that feel equally at home in both traditional and contemporary settings.

“With this collection, we’re revisiting the essence of Milling Road through celebrating its European roots while evolving the pieces for modern design,” said Eric Graham, President of Baker-McGuire. “There’s a timeless quality to these pieces that feels both familiar and forward-looking, and we’re proud to introduce this collection this season.”

Highlights from the Spring 2026 Milling Road Collection include:

- **Santos Credenza** – Boasting an impressive scale and veneered in elegant Santos Rosewood, the Santos Credenza is a modern choice with unique materiality. The rosewood is paired with French Brass on the legs and stretchers, supporting a large-scale case with three sets of doors, a drawer and adjustable shelves.

- **Biedermeier Side Chair** – The Biedermeier Side Chair takes design cues from European seating design of the 19th century, featuring an hourglass silhouette and comfortable saddle seat. The chair has been crafted in walnut to create a piece that is casually elegant.
- **Quilted Bed** – One of the most captivating pieces in this Milling Road collection, the Quilted Bed features a striking geometric quilting pattern, a brushed pine base and small wings at the head and foot. This comforting, enveloping bed is offered in three height options.
- **Painted Parchment Cocktail Table** – The Painted Parchment Cocktail Table is a modern take on the waterfall table, offering a parchment-like finish with block pattern created by debossed seams. Its block feet feature an Anvil metal finish.
- **Drop Leaf Console** – The Drop Leaf Console table is designed to use with versatility: utilize as a serving table, a sofa table or a hall console. This versatile piece is made from walnut and walnut burl with tapered legs and brass sabots in a French Brass finish.
- **Pillar Table** – Evoking the design of an antique table found in London, the Pillar Table is a modern adaptation that pairs a prominent and architectural fluted painted base with a leathered Belgian Bluestone top.
- **Bamboo Chest** – The Bamboo Chest redefines the traditional, elegant side table in a host of natural and textural materials. Featuring reeded drawer fronts, a woven shelf and stylized bamboo turnings, the chest also includes a galleried top and hardware with a French Brass finish.
- **Bookkeepers Side Table** – Burl walnut takes center stage on the Bookkeepers Side Table, which features distinctive patterning on its tabletop and side panels. This simple and functional table is detailed with walnut borders.

The Spring 2026 Milling Road Collection debuts at High Point Market and will be available in showrooms in early fall 2026. For more information, visit www.bakerfurniture.com or follow Baker on [Instagram](#) and [Pinterest](#). #bakerfurniture
