Thomas Pheasant for McGuire Outdoor

Born from the classical design of ancient Greece and Rome, the Naxos Collection by Thomas Pheasant reimagines outdoor furniture with modern elegance and a graceful spirit. Thin, hammered frames gracefully trace the forms of each piece, with generous upholstery and ergonomic design that offer enduring support. Tables feature beautifully crafted travertine and softly rolled edges reminiscent of the furniture from grand Roman estates. Simple and sumptuous, the Naxos Collection recalls the best of the past while offering a new vision for both outdoor and indoor spaces.
