

SPRING 2026 PRODUCT CAPTIONS

The Milling Road Collection

The April 2026 Milling Road Collection incorporates the best of European design from the 18th, 19th and 20th centuries, reimagined for the modern sensibility. Designers sought inspiration from far and wide—French antique shops, English royal estates and the work of the master craftsmen of the past—to create furniture that will stand the test of time. Made from elegant materials like walnut, oak, brushed pine, leather and polished metal, each of these Milling Road selections shows why classical European design still has a place in the contemporary home.
