SPRING 2024 PRODUCT CAPTIONS

The BXG Collection

Home productivity meets modern elegance as Baker collaborates with Gensler, serving as product design consultant, for the BXG Collection. To create this contemporary collection of desks, credenzas, and storage pieces, Gensler merged its knowledge of workplace and product design with a residential aesthetic that's contemporary, yet intimate in form and texture. Layered materials in wood, metal, stone and glass create visual interest and versatility. Cast bronze pulls offer easy, comfortable access to drawers and cabinets. And rich wood tones with rounded edges create a warm, personal experience. The BXG Collection is the definitive assortment of stylish and functional pieces for the way we work today.
